

Activated Carbon Block Water Filters

Jumbo Activated Carbon Block Water Filter Cartridge

Features of the activated carbon block water filter cartridges:

- Water filters are ANSI/NSF42 certified products.
- These water filters effectively reduce chlorine, VOCs, pesticides, hazardous chemicals and odour. Improves taste.
- Low pressure drop, high dirt holding capacity, durable physical strength, and steady flow to achieve reliable performance & longevity.
- Our water filters are manufactured in compliance with NSF and FDA requirement in material and processing.
- The water filters serve residential, commercial & industrial range with standard NPT DOE caps. OEM caps designs available upon request.

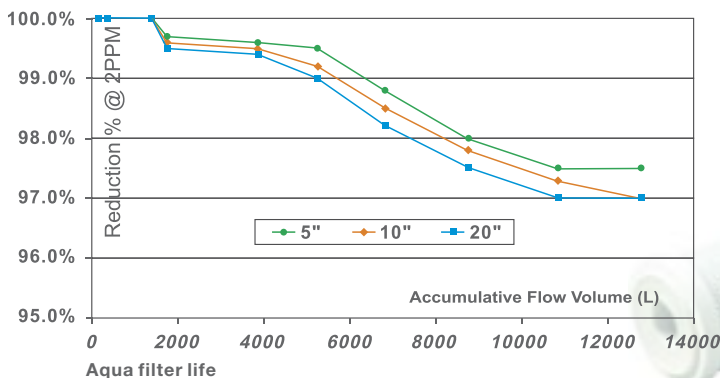

COMPONENT

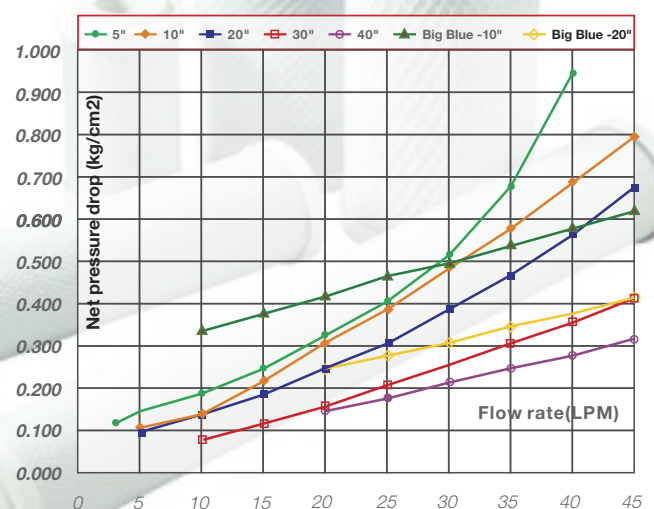

Specifications of the activated carbon block water filter cartridges:

Model No.	Length	OD	Nominal Micron Rating	85% 2 (ppm) Chlorine R. Life span @ flow rate	Initial H ₂ O Pressure drop
CBC-05	5" (127mm)	2 1/2"(63mm)	5uM	8,000 Litres @ 3 lpm	0.12 kg / cm ² @ 3LPM
CBC-10	9 3/4"(248mm)	2 1/2"(63mm)	5uM	14,000 Litres @ 5 lpm	0.11 kg / cm ² @ 5LPM
CBC-20	20" (508mm)	2 1/2"(63mm)	5uM	22,000 Litres @ 5 lpm	0.09 kg / cm ² @ 5LPM
CBC-30	30" (762mm)	2 1/2"(63mm)	5uM	32,000 Litres @ 10 lpm	0.07 kg / cm ² @ 10LPM
CBC-40	40" (1016mm)	2 1/2"(63mm)	5uM	45,000 Litres @ 20 lpm	0.05 kg / cm ² @ 20LPM
BCBC-10	10" (254mm)	4 1/2"(115mm)	5uM	40,000 Litres @ 10 lpm	0.30 kg / cm ² @ 10LPM
BCBC-20	20" (508mm)	4 1/2"(115mm)	5uM	82,000 Litres @ 20 lpm	0.25 kg / cm ² @ 20LPM
