

Water Filter / Reverse Osmosis H₂O Aqua Membrane

Filtering scheme:

	1st Stage Filters	2nd Stage Filters	3rd Stage Filters	4th Stage Filters
3 stages	PP filter	Carbon block	Ceramic candle	
4 stages	PP filter	GAC	Carbon block	U.V. Steriliser
Alternatives	Alternative in-line water filter cartridges models: (#KA33-models, #KF (male) models, #KF (female)-models)			
Life span	3,500 litres	3,500 litres	3,500 litres	3,500 litres

Note: * All filter elements are with ANSI/NSF42 certification.

Optional in line water filter cartridges:

In line sediment PP water filter cartridges with NSF42 PP water filter element:

Models: #K5633-PP, #KA33-PP, #KF33(F)-PP, or #KF33(M)-PP.

Effectively removes dust, dirt, sediment & microbes.

In line granular coconut shell activated carbon water filter cartridges with NSF61 media:

Models: #K5633-C, #KA33-C, #KF33(F)-C or #KF33(M)-C

Effectively removes chlorine & VOCs.

In line blended (silver) carbon BLOCK water filter cartridge with NSF42 water filter element:

Models: #K5633-CBC, #KA33-CBC, #KF33(QF)-CBC or #KF33(QM)-CBC.

Variable specifications available e.g. silver carbon block (bacteria resistance), KDF block, fluoride removal block, lead removal.

Effectively removes chlorine, VOCs or customised blended block to remove heavy metals, chlorine, chloramines, chloroform, arsenic, cyst, bacteria, coli-form, fluoride, iron, ammonia.

In line 0.4uM UK Doulton original ceramic candles water filter with NSF42 water filter element:

Models: #KA33-CC004

Effectively rejects bacteria (up to 99.99% for E.Coli) as cost effect alternative to UV steriliser.

UV water steriliser 1GPM:

Taiwan origin with Philips – ultra-violet lamp to sterilise with high sterilising efficiency to thoroughly kill bacteria and viruses as well as mildew, hepatitis, flu and all other viruses.

#K5633(Q) #KF33(QF)
(Both models available with embed quick fittings)

#KA33
PP, carbon block & ceramic candle for #KA33
